The Building - Footing Commercial inspection (B-024569-2016) at 123 MAIN Street has been scheduled for 10/28/2016

When requested it is common practice for Harford County Government to provide a window of time when the inspector will arrive on a job site. Specific inspections times can only be obtained by contacting the assigned inspector between 7:00 am and 7:30 am the morning of the inspection. While we attempt to honor and accommodate individual schedules, there are times that those requests cannot be accommodated due to inspector availability. Specific time requests entered in the comment section that are not confirmed with the inspector may not be possible.

Please do not reply to this email. Contact with a County Agency can be made at the following numbers. This email address is not monitored by Harford County Government for responses.
